Format 4 Tempora 60.12 E-Motion Edge banding machine

M002421

- Year of construction 2018
- Available immediately

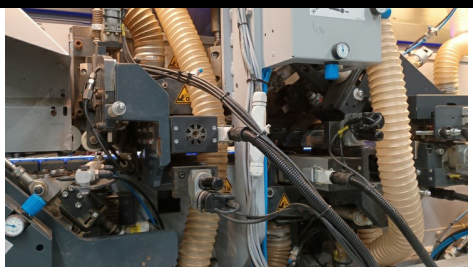

Technical Data

380V/50Hz CE
21" smartouch touchscreen display
LED light
Chain drive with 12 and 20 m/min feed speed and rubberised chain plates
Infrared lamp for preheating the side of the panel
Extended feed ruler (+400 mm) INCL. support surface extension
Pneumatic-mechanical feed stop to prevent premature workpiece feeding
Cutters with reversible knives, height 64 mm instead of 49 mm
Spray unit for PU cleaning agent on the infeed side
Premelting unit for glue granulate, cap. 3.5kg, glue container 0.4kg, quick-change system, heated glue roller
Reversing function for glue application roller
Nesting kit on multifunctional milling unit
Corner rounding cutter unit with 2 motors for front-end processing, motorised positioning
Surface scraper for nesting
Detergent spraying unit - for polishing unit
Spraying unit for lubricant
Exchangeable glue container 1.5 kg and heated glue roller for granulate
Mobile cleaning trolley for glue container
Storage bin for 1 Tempora glue container
