Format 4 Creator 950 Advanced Compact CNC Drilling and milling centre
M002886

- Year of construction 2020
- Available in July/August 2027

Technical Data

Max. workpiece dimensions 4000 x 950 x 80mm
Operations from top
Drill head with 11 vertical drills / 6 horizontal drills / 1 groove saw in X
Milling spindle 12 KW - HSK-F63 with automatically height-adjustable extraction hood
Workpiece transport in X with double clamps
Pneumatic roller clamping from above
Automatic length measurement (X)
2 reference cylinders
Air cushion tables front and rear
4-fold tool changer
Pick-up position
Visualisation by colour LEDs of the machine status
